

## Using SFTP to download EM Center Data

Download **cyberduck**

<http://cyberduck.en.softonic.com/mac>

Start cyberduck (If it is not responding, force quit and open cyberduck again)

Click on Open Connection

In the top drop-down menu, select: SFTP (SSH File Transfer Protocol)

In Server box, enter: **emcdb.biol.sc.edu**

Select port: **555**

Username: Your user name (Lab users may have to use PI account)

Password: Enter the assigned password

Press Connect

If an 'Unknown fingerprint' message opens, click allow
